

Certificate

Torsten Gölz

ELECTRICAL VEHICLE TECHNICIAN

CMA platform BEV

Electrical Vehicle Technician has permission to perform work in de-energised circuits. Examples of work that is permitted are de-energising and energising of the high-voltage system (disconnection and connection of the high-voltage battery).

This certification corresponds to the Volvo requirements to perform work with electrified vehicles. Some countries/regions might require further training. Always be sure what applies to your country/region.

TECHNICAL COMPETENCE DEVELOPMENT

Gothenburg
